

## BETTER ROADS PROMISED COCHISE COUNTY

County Bond Issue Association  
Delegates Gather in Session  
Characterized By Harmonious  
Co-operation.

ROAD EXTENSION  
WILL BE RUSHED

Maps Submitted From Different  
Districts Indicate Wishes of  
Citizens Concerning Half Mil-  
lion Expenditure.

Representative citizens from all parts of Cochise county assembled in the Bond Issue association convention yesterday at City Hall to consider the of the approximately half million dollar bond issue to be used for the purpose of extending and renovating the public highways of this, one of the richest and most progressive counties in the whole state.

Harmonious concurrence in a determined purpose to expend the funds in a manner assuring the highest degree of ultimate gain for the citizens of the county as a whole was the most striking feature of the meeting. Although many of the problems of road construction involved are a trying nature and calculated to bring out more or less honest diversity of opinion, it was conclusive indication of the prevailing spirit of unselfish co-operation and willingness to make individual sacrifices for the welfare of the whole, that in no case was there any demonstration of bitterness or dissatisfaction over the trend which the discussions were taking.

President A. H. Gardner, of Tombstone, one of the most progressive and influential business leaders of the county, presided, calling the delegates to order at about 1:30 o'clock. Secretary Joseph H. Gray read the minutes of the preceding meeting. Call for the roll showed the following delegates present: J. J. Bowen, Bisbee; Harry Jennings, Lowell; J. C. Ryan, Warren; G. H. Dowell, Douglas; George H. Kelly, Pinalville; C. B. Tarbell, Tombstone; Charles Moss, Benson; J. W. Angle, Wilcox; T. L. Hill, San Simon; J. J. Thompson, Canyon; G. J. M. McCabe, Garces; H. E. Cooper, Buena; C. E. Welsh, J. C. Hancock, Paradise.

Maps from the various districts were then submitted, a committee consisting of G. H. Dowell, J. J. Bowen, J. J. Thompson and County Engineer Ryan being appointed to receive and file the maps. As the delegates presented the maps from their districts, they were carefully examined by the committee with reference to the particular places of highway change or extension indicated by the expression of the delegates concerning the wishes of the constituents.

A total of 796 miles of new highways are desired by the different districts, the mileage being divided as follows: Bisbee 53, Douglas 128, San Simon 55, Bowie 42, Wilcox 53, Cochise 32, Courtland 80, McNeal 75, Double Adobe 20 1/2, Tombstone 57, Patoninas 5 1-8, Hereford 14, Garces 18, Buena 9, Lewis Springs 21, Fairbank 29, St. David 22 1/2, Dragoon 23, Benson 41.

With the purpose of cutting down expense wherever practical, and in a manner which would not endanger the general public welfare, Delegate G. J. M. McCabe of Garces proposed the appointing of a committee of seven to seek to cut down expenses wherever it was deemed advisable. Motion for the appointment of this committee was seconded by Delegate Charles Moss of Benson.

The convention gave unanimous consent to a motion by Delegate McCabe to create a committee of seven, augmented by the county engineer, president and secretary of the organization, to act as representative of the county engineer and to outline a system of trunk lines to report at the call of the chairman.

Such a committee was appointed by President Gardner, aided by members of the executive committee, members

## McADOO'S DAUGHTER RETURNS FROM WAR

Miss Nona McAdoo, daughter of William G. McAdoo, secretary of the treasury, has just returned from Europe with her friend, Miss Katherine Britton, another Washington society girl. While abroad Miss McAdoo served actively as a nurse in one of the French army hospitals.

Miss Nona McAdoo, daughter of William G. McAdoo, secretary of the treasury, has just returned from Europe with her friend, Miss Katherine Britton, another Washington society girl. While abroad Miss McAdoo served actively as a nurse in one of the French army hospitals.

## CAL COX IS HELD IN CLINTON CASE

Cox Is Man Who Rode to Clinton  
House, With Scarborough, on  
Night of Murder; Held in the  
County Jail With Other.

Cal Cox, for many years a resident of the Huachuca section, during which time he has been engaged in the cattle game, is under arrest and in the county jail at Tombstone, facing a charge of being an accessory to the murder of Jack Clinton.

The last sad rites were held over the remains of the Patoninas rancher yesterday morning. Father Mandin officiated and interment was made in the Catholic plot in the Evergreen cemetery. The services were held from the O. K. undertaking parlors and were attended by many of the friends of the deceased.

Cox was arrested about the same time that Scarborough was caught in Benson, though the suspicion pointed at the latter in a stronger light and most of the attention was directed to him. It was Cox who rode up to the Clinton home on the fatal Friday night.

According to the story told by Cox, when arrested by Deputy Sheriff Brakefield and Newell, he was asked to go to the Clinton place by Scarborough who was passing by his camp. Cox declares that he did not know that Scarborough was going to make any trouble. He further declares, and is borne out by the testimony of Clinton's daughter at the coroner's inquest, that he never dismounted from his horse when the shooting occurred.

Both men are in the county jail in Tombstone. The preliminary hearing has not been set as there seems to be some doubt in the minds of the Prosecuting Attorney and the Sheriff as to the precinct in which the killing occurred. The preliminary will, however, probably be held in either Naco or Hereford within the next few days.

## CRUISER ARRIVES

SAN FRANCISCO, June 21.—The cruiser Chattanooga, which sailed from San Diego Thursday a few hours after the Colorado left, is supposed to be following the flagship to Mexico, entered the bay Saturday night.

## LAND BILL IS NOW BEFORE THE HOUSE

Conference Committee Agrees to  
Provisions of the Land Bill;  
Senate Approves It But the  
House Does Not Act Upon It.

ONE COMMISSIONER  
WILL BE APPOINTED

Provisions of a Labor Commis-  
sion Act Approved By House;  
Edwards Bill Passed; Pinkley  
Bill Thought Buried.

PHOENIX, June 21.—The Legislature confers, on the land bill, submitted a report today but the House did not consider the same prior to adjournment while the senate voted to accept it. The personnel of the land department was unchanged in conference leaving the Governor, Secretary of State, Auditor, Attorney General and Treasurer to name the land commissioner.

The double board of appraisers was knocked out and an entire new provision was adopted providing that appraisers for improvements on public lands shall be three in number, one named by the chairman of the board of supervisors of the county in which the land is located, one by the land commissioner, and the third by the governor. This occurred after the House conferees failed to secure the changing of the state treasurer to read superintendent of public instruction as members of the appointing board.

There is good indication that the House will accept the greater part of the report although several unimportant details may force the bill into a second conference.

The Edwards prohibition law, which makes no exemptions from prosecution for the sale of alcohol, was finally agreed to in the House and ordered enrolled. Its progress being assisted by those members of the House who are opposed to any legislation on this subject acting on theory that the Senate will kill the bill.

The House also approved the bill providing a salary for the land commissioners from March eleventh to July first and finally agreed to the terms of a department of labor act. This bill provides for board of five members who shall serve as arbiters in labor disputes, two to be named by employees, two by employers, and the fifth to be named within five days, by the four selected. If no selection is made then the governor shall name the fifth member, and a new board shall be created to handle each labor dispute which may arise.

In committee of the whole the House also accepted Pinkley's bill abolishing capital punishment but a tie vote failed to order the measure enrolled and Pinkley is tonight doubtful if he can secure its passage through the House.

## APPLICATION GRANTED.

The corporation commission today granted the application of the El Paso and Southwestern Railroad for a replacement bond issue, heretofore applied for.

## FRENCH BUY HORSES.

Representatives for French government bought over one thousand head of horses here today for shipment abroad at prices ranging from \$75 to \$125.

## ENJOINED FROM SALE.

WASHINGTON, June 21.—The Supreme Court has enjoined Oregon and the California Railroad Company from selling undivided portions of its congressional land grant. Sales to actual settlers in 160 acre tracts at \$250 per acre permitted under a decision that after this Congress has six months in which to enact further legislation on the subject. Lands involved are valued at more than \$30,000,000.

The Court refused to forfeit the rights to the government for the companies' failure to comply to the provisions as to price and settlement and also denied application of actual settlers who had gone on the lands without permission of the railroad and of applicants for entry to have the property declared a trust in their own behalf.

## INVESTIGATION PROGRESSES.

SAN FRANCISCO, June 21.—Some evidence that recruits for the allies had been enlisted here was obtained by John W. Preston, United States District Attorney. It is said. He termed the progress in the federal investigation as "satisfactory."

## GERMANS ARE COMING! BRITISH FACING CHARGE NEAR YPRES

This photograph is not only very remarkable in itself, but extraordinary in that it is the first which shows Germans advancing against British trenches during the great war. In the foreground are British trenches manned by the King's Liverpool regiment. Midway along the trenches shown in the photograph is an officer ready to lead his men. It will be noted that layonets are fixed.

## GOVERNOR SLATON OBJECT OF ANGRY MOB

## PEACE MAY COME IN MEXICO AT LAST

Reported Break Between Obregon and Carranza and Departure of Angeles for Boston Reason for Conjectures.

WASHINGTON, June 21.—The expected arrival in the United States of General Felipe Angeles, Villa's principal military expert, since the split of the Constitutionalist movement, and the persistent rumors, despite the denials, of friction between Carranza and his field leader, Obregon, has given rise to speculation in official circles here, as to whether certain elements of the contending factions are about to inaugurate a definite movement to bring about peace in Mexico as urged by the president in his recent statement.

Angeles passed through Chicago en route to Boston where he will visit his family. He denied any break between himself and Villa. Although disclaiming official knowledge, Villa's agent here intimated that Angeles is commissioned to discuss plans with the Washington government and some leading supporters of Carranza, including Obregon and members of the Carranza cabinet, whose resignations were accepted.

Carranza, who thus far has declined to accept Villa's offer for a conference to devise a plan for the reestablishment of constitutional government formally notified his Washington representative that the reports of a break between himself and Obregon were without foundation. Notwithstanding this, however, officials here are inclined to the belief that Obregon and other Constitutionalists leaders, who thus far have stood with Carranza in his uncompromising attitude, are now ready to talk peace.

The resignations from the Carranza cabinet of Rafael Zubaran, Jesus Urrutia, Escudero Verdugo, friends of Obregon, are regarded in official circles as particularly significant in view of Carranza's refusal to consider Villa's appeal for a conference.

Consul Silliman at Vera Cruz reported to the State Department that Carranza has accepted these resignations together with that of Luis Cabrera, minister of finance. Carranza's agents here, however, insisted the general had not accepted Cabrera's resignation and that he accepted them Cabrera would remain in the cabinet.

Governor of Georgia, at Last Moment, Commutes Sentence of Atlanta Man, to Imprisonment During His Life.

ATLANTA, June 21.—With several hundred men and boys clamoring to get in the front gates of his country home, which had been barricaded with barbed wire entanglements, and threatening to overpower the twenty country policemen, armed with riot guns, Governor Slaton called out the militia, late tonight, for protection. Upon the arrival of four companies, which had been held under arms, and rushed in automobiles, the governor proclaimed martial law in the district extending one half mile in front, a half mile in back and about one quarter mile on either side. When the soldiers lined up with fixed bayonets to disperse the crowd, stones, bricks and bottles were thrown at them. Several soldiers were injured. It is also reported, from Milledgeville, where the state prison is located, and where Frank was taken, that trouble is feared there, but no request for troops has been made.

In the melee in front of the governor's home a brick struck Lieutenant Parker in the stomach and rendered him unconscious a short time. A bottle struck the gun of private Poole. He was cut in the hand. The commanding officer, Major Catron, was struck by a stone as were several other men.

The Governor proclaimed martial law at eleven tonight, and by midnight the road was virtually dispersed. There was no firing. The Governor said no troops would be sent to Milledgeville until requested by the sheriff. The Governor was surrounded, at his home, by about a dozen friends, nearly all armed with rifles or pistols. The unexpected arrival of a member of the family in a dark corner of the front porch caused the governor, himself, to hastily pick up a large pistol.

GOVERNOR ISSUES STATEMENT.  
ATLANTA, June 21.—Leo Frank, whose death sentence for the murder was unanimous.

(Continued on page 2)

## TEUTONS ARE PUSHING FURTHER EAST

Rawa Ruska, According to Berlin, Has Fallen Into the Hands of the Germanic Allies Who Rush Eastward.

RAILWAY TO LEMBERG  
REPORTED SEIZED

French and British Claim to Be Making Progress Along the Westward Front Which Counter-Balances East Defeats.

LONDON, June 21.—Rawa Ruska, according to the Berlin official is the latest Russian position in Galicia to fall into the hands of the Teutons, as they are also reported to be fighting east of this town, the investment of Lemberg must be so nearly completed that the Russians either must withdraw from the Galician capital or leave a portion of their forces there to be besieged.

The German general, Von Mackensen, is reported to have seized the railway connecting Rawa Ruska with Lemberg, thus cutting the off retreat of the Russians northward. According to the latest news from Austrian headquarters, the Teutonic allies are now within nine miles of the limits of Lemberg. The official Turkish report indicates considerable activity in the Dardanelles, with the Allied battleships again battering away at the forts of Seddul Bahr. In West Paris continues to report French advances, especially in the region of Arras.

Here it is asserted that progress was made in the direction of Douai, and that the capture of several trenches brought the attackers near the northwest of the village. Further progress is also reported in the Lorraine district and in the Vosges. In the latter region the French claim to have made advances beyond the cemetery at Metzeral, the loss of which town is now officially admitted by Berlin.

Wonder is expressed by German military critics over the Austro-German advance toward Lemberg in the last few days. They had expected the Russians to make a final stand along the Grodek line. Instead, Grand Duke Nicholas, commander in chief of the Russians, not only retired quickly from this position, but evidently recognizes his dangerous predicament, also ordered the withdrawal of the Russian forces from south of the Dniester river.

England today turned its interests from actual warfare to the provision of aid to war, the House of Commons having provided the government with a blank check, the size of which is to be limited only by the patriotism and resources of the British citizens. The trial, in Africa, of General Christian Dwyer, one of the rebel leaders, ended in a verdict proclaiming him guilty of treason. It is not expected, however, that the death sentence will be imposed.

## GERMANS CONSIDERING REPLY TO UNITED STATES.

BERLIN, June 21.—Foreign office experts have commenced the consideration of the German answer to the American government's note concerning submarine warfare and the first draft of the document will presumably be finished by the end of this week. As the reply will this time be submitted to Emperor William at his headquarters after it is threatened out between the departments concerned it will probably not be ready for transmission before the middle or end of next week.

There is no clear indication as to the probable nature of the note yet obtainable. From the emphatic naval writers continue to lay on the alleged British practice of flying neutral flags and encouraging merchantmen to attack submarines and the impossibility for submarines to observe regulations concerning visitation and search under these conditions, it might be anticipated that this argument will be the kernel of the reply.

Scovill Manufacturing Co. of Waterbury, Conn., has increased number of employees from 1500 to 12,000 because of large war orders.
